

INFOCon Definition

INFOCon images below use a white background. Transparent images are available by adding "_transparent" such as status_blue_transparent.gif.

 <p>infocon: GREEN http://isc.sans.edu</p>	<p>Everything is normal. No significant new threat known.</p>
 <p>infocon: TEST http://isc.sans.edu</p>	<p>This status is used for testing only. Everything is normal. No significant new threat known.</p>
 <p>infocon: YELLOW http://isc.sans.edu</p>	<p>We are currently tracking a significant new threat. The impact is either unknown or expected to be minor to the infrastructure. However, local impact could be significant. Users are advised to take immediate specific action to contain the impact. Example: 'MSBlaster' worm outbreak.</p>
 <p>infocon: ORANGE http://isc.sans.edu</p>	<p>A major disruption in connectivity is imminent or in progress. Examples: Code Red on its return, and SQL Slammer worm during its first half day</p>
 <p>infocon: RED http://isc.sans.edu</p>	<p>Loss of connectivity across a large part of the internet.</p>
